

Smartz, the platform for incontinence management (connected diapers)

The system includes a Smartz clipand ink-ready diapers, offered at the same price as standard diapers.

It enhances resident comfort, improves care quality, saves staff time, reduces costs (less laundry and changes), and minimises waste, supporting sustainability.

Less laundry and changes, reducing costs and waste, and supporting a more sustainable care model.

Saves staff time with real-time insights and remote monitoring across devices.

Deployment status

In Italy, currently deployed in three facilities with over 600 beds, and soon expanding to a fourth location.
