Press release
20 November 2026

Clariane celebrates its 2026 graduates and continues to expand its training programmes

At its annual graduation ceremony, held on 20 November 2026, Clariane honours employees who have earned qualifications across the six European countries in which the Group operates. The event also provides an opportunity to celebrate the integration of Campus Croix Saint-Simon, which specialises in training healthcare and care professionals, into Clariane Formation, a new entity bringing together initial education and continuing professional development.

Nursing assistants, nurses, managers, hospitality and service professionals: the 2026 graduates reflect the diversity of professions and career development opportunities within the Group. Each year, more than 7,200 Clariane employees, representing 12% of the Group's workforce, undertake training leading to a recognised qualification.

A longstanding partner of the Group, Campus Croix Saint-Simon officially joins Clariane, following the announcement of its acquisition on 21 October 2026, after a ruling by the Paris Commercial Activities Court. Comprising seven training institutes, the Campus trains nearly 800 students each year for careers as nurses, nursing assistants, childcare assistants, paediatric nurses and social workers. It also conducts research in allied health professions.

This integration enables Clariane to complement its longstanding continuing professional development programmes with initial education and training. These two complementary activities are now brought together within a new entity, Clariane Formation. It builds on the expertise of Campus Croix Saint-Simon and the three academies of the former Clariane University, dedicated to healthcare, hospitality and services, and management and leadership. Its aim is to support professionals throughout their careers, from their initial education to their ongoing professional development.

Nadège Plou, Chief Human Resources Officer of Clariane, said: *"This European graduation ceremony reaffirms our strong belief in giving everyone the opportunity to learn, develop and thrive in healthcare professions, which are more essential than ever in addressing Europe's major public health challenges. With Clariane Formation, we now have a comprehensive training offering designed to serve students, employees and the sector as a whole."*

About Clariane

Clariane is the leading European community of care in times of vulnerability. It has operations in six countries: Belgium, France, Germany, Italy, the Netherlands and Spain.

Relying on their diverse expertise, each year, the Group's 70,000 professionals provide services to 840,000 patients and residents in three main areas of activity: care homes (Korian, Seniors Residencias, etc.), healthcare facilities and services (Inicea, Ita, Grupo 5, etc.), and alternative living solutions (Ages & Vie).

In June 2023, Clariane became a purpose-driven company and added to its bylaws a new corporate purpose, common to all its activities: "taking care of each person's humanity in times of vulnerability".
