## Korian France certified Top Employer in 2022

Following Korian Germany in 2021, Korian France has been certified Top Employer 2022. Korian is thus the first company in France's health and medico-social sector to receive this distinction awarded by the Top Employers Institute.

Korian France's overall score of 70.12%, exceeded the 60% required to meet the standard. Obtaining particularly high scores were Korian France's HR policy organisation and management, as well as its employer brand and inclusion practices.

The comprehensive audit preceding this certification covered 400 HR practices which were divided into six main areas (Manage, Organise, Attract, Develop, Engage and Bring together), covering a total of 20 themes, including talent management strategy, work environment, talent acquisition, training and skills development, well-being at work, and diversity and inclusion.

*"After Korian Germany's certification in 2021, this certification encourages us to continue the fundamental work undertaken over the past six years to make Korian the reference employer in the elderly and fragile care sector on a European scale. Our employees' health and safety, the development of their skills, and our commitment to work-study programmes are at the heart of our mission and our "In Caring Hands" corporate project", declares Sophie Boissard, CEO of the Korian Group.*

Created over 30 years ago, Top Employers Institute is the international authority that certifies HR practice excellence. To date, it has certified more than 1,857 organisations in 123 countries.
